

DEEPAN A

Chennai, Tamil Nadu | deepanrao@aecsaalem.edu.in | +91 6369297998 | github.com/Zaraofxl | linkedin.com/in/deepan1205

PROFESSIONAL SUMMARY

Computer Science Engineering student and Best Paper Award winner with hands-on full-stack experience in React, Angular, Python, Go (Gin), REST APIs, MySQL, MongoDB, and Redis. Proven ability to design and ship secure, real-time, CRUD-driven applications end to end, from database schema to deployed live demo.

TECHNICAL SKILLS

Languages : HTML5, CSS3, JavaScript (ES6+), Python, , SQL
Frameworks & Libraries : React, Angular, Node.js, Gin (Go), RESTful APIs
Databases & Caching : MySQL, MongoDB, Redis
Tools & Platforms : Git, GitHub, VS Code, Render (deployment)

PROJECTS

Pulse Polling – Real-Time Polling Platform

Sep 10, 2026 – Sep 21, 2026

Tech Stack: React, Go (Gin), MongoDB, Redis

Live Demo: pulsepoll-zara-frontend.onrender.com

- Developed and deployed a full-stack polling application with a React frontend and a Go (Gin) REST API that lets users create polls, cast votes, and view live results.
- Integrated Redis for real-time vote updates and fast vote-count lookups, so results refresh instantly for all participants without page reloads.
- Designed MongoDB collections for polls, options, and votes and structured Gin endpoints to keep vote data consistent and results scalable.

Employee Leave Management System

Mar 11, 2026 – Apr 20, 2026

Tech Stack: Angular, Python, MySQL, REST API

- Built a full-stack leave management application with secure REST APIs for authentication, leave requests, and manager approvals.
- Implemented real-time tracking and reporting of leave balances and history, speeding up the approval workflow.
- Designed the MySQL schema and role-based access control to separate employee and manager permissions.

INTERNSHIP EXPERIENCE

Web Development Intern – PUMO Tecno Vision, Chennai

1 Month

- Built and structured web pages using core front-end technologies (HTML, CSS, JavaScript), applying web development concepts to real project tasks under industry guidance; certified on completion.

EDUCATION

Bachelor of Engineering in Computer Science – Annapoorana Engineering College

2023 – 2027

CGPA: 7.6

CERTIFICATIONS & ACHIEVEMENTS

- Best Paper Award – “Self-Healing Network Using AI,” 2nd National Conference on Advances in Computational Intelligence (NCACI-26)
- Web Development Internship Certificate – PUMO Tecno Vision, Chennai (1 Month)
- The Complete Web Development Bootcamp Certificate (Online)

SOFT SKILLS

Time Management | Team Collaboration | Fast Learning | Hardworking
